Interstate Challenge comes to Canberra

This weekend Water Polo ACT will host the inaugural Interstate Challenge at the Australian Institute of Sport Aquatic Centre.

The tournament which serves as a pre-courser to upcoming National State Championships will be an important stepping stone for players preparing to represent their state at a national level.

ACT will have 4 teams participating across both boys and girls divisions. The ACT Dolphins teams have been in preparation mode since April and are looking forward to putting all their hard work into action.

They will take on teams from Queensland and Tasmania as well as draft players from NSW and VIC in what will be stiff opposition for the ACT teams. We acknowledge the efforts made by Water Polo Queensland and Water Polo Tasmania staff and volunteers to help get the competition off the ground.

The competition will be refereed by an all WPACT referee crew, which will help aid the referee's development at the next level.

If you are interested in attending the draw is available on our new website [**HERE**](#).

We wish all teams the best of luck and look forward to having you here in Canberra.
